#### **RISK FACTORS**

The following Risk Factors shall be amended and/or updated and/or added under the section titled "Risk Factors" beginning from page 28 of the Draft Red Herring Prospectus:

13.Our net cash flows from operating activities have been negative in some years in the past. Any negative cash flow in the future may affect our liquidity and financial condition.

We have, in the past, experienced negative net cash flows in operating activities for FY 2025 and FY 2023 and negative cash flows in investing activities for FY 2025, 2024 and FY 2023 and negative cash flow in financing activities in FY 2024 and FY 2023. Such negative cash flows from operating activities for FY 2025 were mainly attributable to change in working capital consist of increase in Trade Receivables and for FY 2023 were mainly attributable to change in working capital consist of decrease in Trade payables. Negative cash flows in investing activities for FY 2025, 2024 and FY 2023 were mainly attributable to purchase of fixed assets, purchase of investments and other assets.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(₹ In Lakhs)

Particulars	For the fi	For the financial year ended on March 31,			
	2025	2024	2023		
Net cash (used)/from operating activities	(176.34)	234.27	(26.67)		
Net cash (used)/from investing activities	(27.49)	(51.98)	(45.58)		
Net cash (used)/from financing activities	176.32	(17.96)	(3.74)		

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

The above Risk Factor will be shifted in Top 10 RFs.

4. We depend significantly on our clients from different industries and are highly dependent on the performance of their industry. A loss of, or a significant decrease in their business could adversely affect our business and profitability.

We depend significantly on clients operating in the Chemical & Allied products, Textiles & Commodities and Machine Equipment industries in India. Our clients operating in the abovementioned industry contributed as stated below in the table:

Industry	Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Revenue	% of	Revenue	% of	Revenue	% of
	(₹)	Revenue	(₹)	Revenue	(₹)	Revenue
		from		from		from
		operations		operations		operations
Chemical &	4,223.60	22.16	1,912.82	18.72	2,375.20	12.57
Allied Products						
Textiles &	3,324.18	17.44	3,194.88	31.26	6,695.14	35.42
Commodities						
Machinery	2,030.72	10.66	699.74	6.85	1,099.15	5.82
equipment						
Total	9,578.50	50.26	5,807.44	56.83	10,169.49	53.81

As a result of our dependence on these clients, any loss of business from, or any significant reduction in the volume of business with, any of these clients, if not replaced, could materially and adversely affect our business, financial condition and results of operations."

These industries tend to be affected directly by trends in the general economy. These industries are sensitive to general economic conditions and factors such as consumer demand and confidence, inflation, employment and disposable income levels, interest rate levels, demographic trends, technological changes, increasing environmental, health and safety regulations, government policies, political instability and fuel prices which may negatively affect the demand for our services. In particular, any technology driven disruption may change the way the different industries operate and could adversely affect certain of our existing clients if they are unable to anticipate and act upon these changes. Any significant reduction in sales and production by our clients, such as the substantial deterioration in production that followed the global financial crisis, could have a significant negative effect on the demand for our services. Demand is also subject to seasonal variations in revenue. If one or a combination of the foregoing factors were to arise, our business, financial condition, results of operations and prospects could be materially and adversely affected.

# 11. There is delayed filing noticed in some of our corporate records relating to forms filed with the Registrar of Companies

There has been no discrepancies/delays and non-compliances noticed in the corporate records relating to forms filed with the Registrar of Companies except as disclosed below:"

Sr. No.	Discrepancies/Delay in Filing	Corrective Actions Advised	Delayed Penalty Paid
1	PAS-6 - Reconciliation of Share Capital	Actual Date of Filing- 25/06/2025	₹ 1200 (As
	Audit Report (Half-yearly) - Filed	No. of days delayed – 25 Days	Additional
	beyond due date		Fees)
	-	Corrective Actions Advised: To be filed on	
		or before 30 <sup>th</sup> May of every half year ending	
		on 31st March 2025, Noted for further	
		compliance.	

As certified by Practicing Company Secretary, Zalak Mehta & Associates vide certificate dated July 07, 2025.

Further, the Bonus Issue resolution dated March 31, 2025, inadvertently omitted allotment of shares on fractional entitlements, which were subsequently allotted as per the Board resolution dated May 12, 2025.

Although, as on date of filing this Draft Red Herring Prospectus, our Company has maintained appropriate system and has updated its corporate records such as minutes, statutory forms, registers and documents as required under Companies Act, 2013; while there has been no impact on our financial condition or any statutory or regulatory proceedings initiated in this regard as of the date of this Prospectus; there can be no assurance that any deficiencies in our internal controls and compliances will not arise, or that the regulator will not initiate proceeding against us or will not impose penalty on us or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any future deficiencies in our internal controls, in a timely manner or at all. Further, to improve our secretarial compliances we have appointed Sweety Jhunjhunwala as Company Secretary and Compliance Officer.

# 68. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the BSE SME in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the BSE SME. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

The above Risk Factor will be added/updated in RHP/Prospectus.

Turno	ver					

# **Key justification for holding levels**

Key assumptions for working capital projections made by our Company:

Particulars	Justification
Trade Receivables	Trade Receivables days have been calculated as trade receivables as on balance sheet date divided by revenue from operations over 365 days and for the period ended December 31, 2026, it is divided by revenue from operations over 275 days
	The average holding period of trade receivables increased to 44 days in Fiscal 2025, up from 43 days in Fiscal 2024 and 16 days in Fiscal 2023. This increase was undertaken to accommodate customer demands and foster strong customer relationships. Additionally, the overall volume of business has grown, leading to a rise in trade receivables and a corresponding increase in the working capital gap.

Particulars	Justification
	To further support sales growth, the Company has decided to offer extended credit terms of 60 to 90 days to both prospective and existing customers. As a result, the average credit period is projected to increase to 65 days in Fiscal 2026 and 67 days for the period ended December 31, 2026, it is divided by revenue from operations over 275 days, aligning with the Company's strategy to drive business expansion.
	Rationale for Increase in Trade receivables days: 1. Extended Credit Terms to Customers The freight forwarding industry is highly fragmented and price-sensitive. To stay competitive, retain key clients and attract new clients, the company may offer longer credit periods (e.g., 60–90 days), particularly to large-volume or strategic new customers. This strategic flexibility, while supporting revenue growth, directly increases receivable days.
Short term loans and	2. Customer-Centric Strategy In a relationship-driven industry like logistics, the company may have prioritized customer satisfaction and loyalty by allowing more flexible payment terms, even if it leads to longer receivable cycles.  Short-term loans and advances comprise of Short term loans, Advances given to staff,
advances	Advances paid to suppliers and Balance with the Govt Authorities. It has been maintained in line with the projected business activity for the Fiscal 2026 and for the period ended December 31, 2026.
Other Current Assets	Other Current Asset mainly consists of Prepaid Purchases, TDS and GST Credit.
Trade Payables	Herein there is no major variation except for growth in business.  Trade payable days are calculated as trade payable as on balance sheet date divided by cost of services over 365 days for the period ended December 31, 2026, it is divided by cost of services over 275 days.  The average trade payables were 39 days in Fiscal 2024 which has reduced to 32 days in Fiscal 2025, the Company aims to reduce this to 20 days in Fiscal 2026 and 13 days for the period ended December 31, 2026, which will help us negotiate better rates with suppliers. Shorter credit terms and increased business volume with third-party agencies will provide the Company with better pricing, enabling to offer more competitive rates to customers. This strategic shift in the Company's trade payable policy has contributed to an increase in the working capital gap.
	Rationale for Decrease in Trade Payables days:  1. Strengthening Relationships with Carriers and Vendors The Company is dependent on global carriers (shipping lines, airlines, trucking companies) and service providers (warehouses, customs brokers). So in order to:  • Secure better freight rates • Get space priority during peak seasons • Access value-added services,
	The vendors have asked for faster payment cycles (e.g., reducing from 30–45 days to 15–30 days) to become preferred clients.
	<ul> <li>Use of Prepaid or Spot Freight Bookings</li> <li>To capitalize on lower spot rates or ensure timely shipments, the Company intends to:</li> <li>Prepay freight charges</li> <li>Use digital freight platforms requiring immediate payment</li> </ul>
	This trend reduces average trade payables days significantly, particularly for ocean and air freight legs.

Particulars	Justification
	3. Compliance with International Credit Terms In some countries, trade regulations or local laws may limit payment terms or enforce strict late payment penalties. To stay compliant and avoid legal exposure, the Company's payable days reduce.
Other Current Liabilities	Other current liabilities majorly comprise of provision for tax and Statutory dues. The same is expected to be in similar lines.

Notes: As certified by M/s J S Bhalja & Co Chartered Accountants through their certificate dated August 29, 2025

### Issue related expenses

The total expenses of the Issue are estimated to be approximately ₹ [•] lakhs. #### **OUR BUSINESS**

The following information shall be amended and/ or updated and/or added under the chapter titled "Our Business" beginning from page 115 of the Draft Red Herring Prospectus:

#### **INSURANCE**

We subscribe to and renew from time-to-time various insurance policies, including MTO, Freight Forwarder, CFS and Haulage Services policies. Our insurance policies cover, among other things, claims arising out of physical loss or damage to cargo, vessel or equipment owned or operated by sub-contractors or customers and incorrect or wrongful delivery of cargo or delay in handling cargo. Insurance cover is critical to our business, particularly in our MTO operations where we issue multimodal transport documents or bills of lading. Although we believe our aggregate insurance limits are sufficient to cover reasonably expected claims, it is possible that one or more claims could exceed those limits.
